Issues/Bugs addressed for Bootstrapped Persona Switcher

Issue	Title	Addressed?	Notes:
# 2	Sort Personas Alphabetically	Yes	
# 3	Move "Default" to bottom of list	Yes	
# 4	Right click on PS icon immediately open PS Settings	Yes	
# 5	Compatibility with Persona Menu extension	Yes	Documenting how it interacts with Persona Switcher and what works and what doesn't.
# 6	Middle click to set default persona	Yes	
# 7	Jump to name via keyboard	Yes	
# 8	Use page up and down to scroll through long list	No	We can't intercept key events on the menus. Issue #7 only works becasue it is done by the menu popup XUL element itself.
# 9	Mark active theme in list	Yes	
# 10	Create categories of personas	No	Implementation would involve a lot of complex/ugly code.
# 11	The button does not take the proper appearance in the current Firefox	No	We believe the button appearance was fixed before we got the code.
# 12	Two defaults	No	This is no longer occurring
# 13	Shortcut key	Yes	
# 14	Changing MS delay	Yes	
# 15	Changing preview doesn't affect current windows	Yes	
# 16	Create list only on startup	Yes
